An Albany special days: Information continues to arrive at the Executive chamber from all parts of the country as to the encouraging progress of Governor Cleveland's canvass. As the end of the campaign approaches Governor Cleveland's mail becomes more voluminous. Personal letters are sent from every state in the Union civing assurances of the success of the Democratic national ticket. The newspaper mail also grows larger day by day. Publishers send the Governor marked articles in their various publications as to the political outlook in their respective localities. The western papers contain unusually hopeful views of the outlook.

SUMMARY OF THE SITUATION. The whole situation was to-day summarized by an astate politician as follows:

"The press of the country gives a prety good index of public opinion. It has been our habit during many presidential campaigns to look carefully after the estimates and comparisons made by newspapers outside of this State. We now find the contract of the pressure of the country of the pressure of the state. side of this State. We now find the con-triest strikingly more favorable in this cam-paign than in 1880. From the rural press we learn more accurately the causes of the httle kernels of Republican discontent in this or that locality, which cannot be com-prehended in a broad, national or even State summary of the situation. If these newspapers are closely studied you will find that there is a constantly-growing un-dercurrent for Governor Cleveland for safe business reasons, coupled with a general business reasons, coupled with a general desire for a change. Of course due con-sideration must be allowed to enthusiastic fever whooping it up." EVIDENCE NOT TO BE IGNORED.

But when the Kinderhook Pathfinder. "But when the Kinderhook Pathfiader, to use a fectitious newspaper name, says 'John Smith, a leading merciant of our village, hitherto a Republican, announces his intention to vote and use his influence for Cleveland,' and then goes on and gives the names of half a dozen others of opposite political faith who intend to do the same in the village of Kinderhook, depend upon it that there is good ground for saying there is something wrong with the Republican voters in Kinderhook. Let any man take the rural papers of this State and look them through carefully and he will find a good many John Smiths coming over for Cleveland. Aggregate these John Smiths in the 4,500 towns and villages of the State and it land. Aggregate these John Smiths in the 4,500 towns and villages of the State and it will be found that they represent an incalculable power. What the orators of old have done for us the newspapers of the present day are doing. In no small degree are these same papers the guides and instruments which control and give method to the workings of the party machinery of both the great parties." th the great parties.' REPUBLICAN OPINION OF BLAINE.

An interesting letter has just been re-ceived at the Executive chamber from Mr. Henry R. Boss, of Chicago, who has worked ceived at the executive coameer from M.
Henry R. Boss, of Chicago, who has worked
for and voted the Republican ticket for
over twenty-five years. He now declares
his intention to vote for Cleveland and
Hendricks. Mr. Boss was among the first
to demand the nomination of Abraham Lincoln in 1858. He established a newspaper
in Ogle county, Ithnois; has for over a
quarter of a century been associated with
the workingmen, and is a strong advocate
of trades unions. Among other things Mr.
Boss says: "I cannot vote for Blaine beanuse he represents the bad element in the
Republican party, and because I believe
him and his methods to be thoroughly corrupt. He has never been identified with
any great measure for the public good, but
has a record that connects him with a number of very discreditable operations. He
has grown rich in the public service on a
salary notoriously sufficient only for a decent hveithood. How he has gained his
wealth can only be guessed at from wellknown facts in his career.

GOVERNOR CLEVELAND'S SERVICES.

GOVERNOR CLEVELAND'S SERVICES. GOVERNOR CLEVELARD'S SERVICES.

"On the contrary, Mr. Cleveland's public career, though brief, is distinguished for cleanliness and uprightness. He has won reputation by his efforts to secure a proper execution of official duties on the part of his subordinates, while being careful about his own executive duties. The correst between him and Mr. Blaine in this respect is so decided that I can hardly see how an upprefudiced man, untrammelsee how an null eludiced man, untraumei-led by party ties, cai, besitate in making

NECESSITY FOR A CHANGE.

WEST VIRGINIA'S VOTE.

A Huntington, W. Va., letter to the Herald says: After a two-weeks' tour of this State, embracing visits to more than half of the lifts-four counties, and after

half of the Effy-four counties, and after having met and conversed with many well-informed people of all the different political parties, your correspondent believes his conclusions as to the general situation may have some interest to those whose eyes are directed to this October State.

Parties here prior to this year, with an occasional exception, have been divided into Democratic, Republican, and Greenback. In 1880 Hancock polled for President 57,391; Garfield, 46,243; and Weaver, 9,079—making a total vote of 112,713.

Hancock's plurality over Garfield was 11.
148, and his majority over both opponents.

Hancock's plurality over Garseid was 11-48, and his majority over both opponents was 2,669. It is claimed, and with good reason, that the total vote of 1880 was at least 10 per cent, less than the actual number of electors, or 11,000, of which 75 per cent, were Democrats, or 8,900, and had these stay-at-homes voted the majority over all would have been above 7,000. In support were ment that I appear among you.

If would have been above 7,000, it was not been sufficient to the second were all the moderate of the mode

centrely suppositious. The best-informed Greenbackers do not count on more than 4,000 remanding members of the Greenback organization, while others equally as well informed, not members of that purty, put the number at between 5,000 and 5,530. Of these a percentage will not fuse on the State ticket with the Republicans, but will vote for Wilson for Governor. It is safe, therefore, to estimate the number of this element that will vote with the Republicans against Wilson at not exceeding 5,009.

ENGRASE ON THE DEMOCRATIC SIDE.

INCREASE ON THE DEMOCRATIC SIDE.

INCREASE ON THE DEMOCRATIC SIDE.

Adding to Garfield's vote of 46,000 an increase by immigration of 10 per cent, and a natural increase (those coming of age in excess of deaths and removals) of 10 per cent., and adding the 5,000 of Greenbackers, and Wilson's opponent would receive 60,000 votes, or about 3,000 more than Hancock received in 1880. Now, it will be seen, if these figures are substantially correct, that to make it possible for Republican success one must assume the utterly failneous theory that there has not been any gain in the Democratic vote by reason of natural increase, immigration, or accessions from the Greenback party. It is well known that hundreds of Greenbackers have joined the Democratic party since 1880, and that these far outnumber those who have gone into the Republican ranks. Two thousand would be a safe estimate of the net accessions from this quarter. Admit that there has been only an increase by immigration of five per sent on Hancockie vote there wand fees this. Admit that there has been only an increase by immigration of five per sent on Hancock's vote, there would from this source be added at least 2,500 more votes. Then add ten per cent, more for natural increase, making over 5,500, and the Democratic increase swells up to 10,000. Add this to the Hancock vote and you will have 67,000 as against 60,000, giving the State to Wilson by over 7,000. With the effort which your correspondent knows is going on by Democratic partisans to get out a fuller vote than usual, and making allowance for Republican effort in the same direction, which is pushed with energy and tact, at least 3,000

usual, and making allowance for Republican effort in the same direction, which is pushed with energy and tact, at least 3,000 more can safely be added, which will give the State to the Democrats in October by 10,000, provided but 120,000 voters east their ballots. If the number should be greater the Democratic majority will be increased in proportion.

The vote by Counties.

The counties west of the Kanawha, nine in number, none of which are Republican, will give 5,000 majority. The mountain counties nearest to Old Virginia, ten in number, all Democratic, will give 6,500 majority. Four counties of the Kanawha Valley will give about 1,000 Republican majority. Three of them are so closy that from 100 to 200 votes will carry them either way, and the other, Kanawha, is only unde largely Republican by reason of an almost complete fusion of 1,200 Greenbackers with the Republicans. The interior grazing counties, twelve in number, of which but two are Republican, will give 2,000 Democratic majority. The counties near the Ohio river, above the Kanawha, including the Pan handle, eleven in number, of which but two are Republican, will give 2,000 Democratic majority to the Republicans. The counties near the Ohio river, above the Kanawha, including the Pan handle, eleven in number, of which six are Republican and five are Democratic, will give probably 100 majority to the Republicans. The counties through which the main branch of the Baltimore and Ohio railroad runs and those bordering Pennsylvania and Maryland, eight in number, only three of which are Democratic, will give less than 2,000 Republican majority. Recapitulated, the Democratic majority. Republican majority. Republican mijority. Republican majority. Republican mijority. Rep

Of the fifty-four counties but fifteen ean Of the fifty-four counties but nicen can be certainly counted as Republican, with a possibility of one more. These will likely gire 5,500 Republican majority, while the thirty-nice or forty Democratic counties will likely give 16,000 majority.

ELEMENTS OF WILSON'S POPULARITY. In making these figures no account is taken of accessions to the Republican party from the Democrats, for there are none worthy of notice, and what few there are are more than offset by Republicans who are dissatisfied with the fusion arrangement and by German Republicans in some of the cities and larger towns, who have induced the Democrats. Nor has any attenjoined the Democrats. Nor has any attention been given to many hundreds of the labor element who will vote for Wilson for the reason that they are in sympathy with his auti-monopoly legislation, and approve of his record. West Virginia is more like to also Wilson by Managerity record. ly to elect Wilson by a majority greater than 10,000 than to go below it. ORIO DEMOCRATS AROUSED.

A Columbus special of Thursday to the making a change in the parties holding the reins of Government. The Republican party has been in power for nearly a grarter of a century. During all this time we have had no counting of the public funds or examination of the public affairs, except by partisans interested in covering up any wrong that might exist. Occasionally the curtain has been drawn aside, and we have

wrong that might exist. Occasionally the curtain has been drawn aside, and we have had glimpses of corruption sufficient to appall any well-wisher of his country. We all know that a Democratic President and Congress would make such an examination as is required for partisan interest, if for nothing else."

GREAT DEMONSTRATION AT NIGHT. At night Capitol Square was packed to suffocation. The 35,000 strangers who swarmed into the city were joined by as many more from this city, and the crowd fairly captured the streets. The procession began to move about 8 o'clock. The thou-sands of uniformed men, the waving ban-ners, the torch-lights and illuminations made up a megalificant spectacle. All along the line of march from the doors and windows and housetops thousands waved figure and handkerchiefs and cheered with-out cessation. During the parade speakers eccupied stands at various points in the State-House yard and spoke to a multitude

of listeners. Among the speakers were Governor Hendricks, Governor R. H. McLane, George H. Pendleton, J. A. McMahon, G. H. Bargar, Thomas F. Bayard, J. R. Dociutte, Henry B. Payne, General James Craig, J. F. Follett, Speaker John G. Carlisle, General Mansur, General Durbin Ward, D. S. Gooding, General Pinley, Patrick A. Collins, Governor Hoadly, General Denver, and P. J. McCarthy. Senator Thurman, before introducing Governor Hendricks, read a letter of regret from Governor Cleveland, which was heartly applicated.

Governor Cleveland, which was hearthy applauded.
Governor Hendricks then arose and a rear of applause broke over the vast crowd. He speke for about thirty minutes, and was frequently and loudly applauded. His speech was carefully prepared, and many of the points against the polley and purposes of the Republican party were made with peculiar force and effect. He said that last year \$663,000,000 had been callected from the people. This gave him on-

spondent and responded in answer to the question:

Governor, how have you found the situation in Ohio and Indiana?'

"I have only visited two points in Ohio, Springfield and Columbus. At the former the enthusian was very great, while in this city the demonstration is something remarkable. From the knowledge I have of affairs in this State I would expect the Democrats to repeat the successes of the last few years and elect their ticket by a good majority."

"What of Indiana?"

"I Can safely say that if the spirit which

Ex-Assemblyman Poucher, of Oswego, said at headquarters; "Oswego county is all right. It is thoroughly organized—better than ever before. We will do 1,000 better than in 1880, when Garfield got about 3,500 majority. Blaine will not get 2,500. Our friends in Onondaga county are sanguine and condident of a good result. Ex-Senator Stevens tells me that Spriggs will have 1,500 majority in Oncida county. All about the indications are good. The irritations that exist in some places are purely local and temporary and are rapidly disappearing. The country districts of the State will, in my opinion, do much better than New York. MR. THEDER'S COMING LETTER. It is thought the reply of Mr. Tilden to the complimentary resolutions presented to him by a committee appointed at the Chiego Convention will be ready by the end of the week. It would have been ready much sooner but for a lingering attack from which Mr. Tilden has been suffering from which Ar. Timen has been searches for some time past. It is expected he will make an elequent and persuasive appeal to the people for the election of Cleveland and in favor of honest government. It is said the Republican managers fear more the coming deliverance of Tilden than any other possible factor in the contest. WORKINGMEN FOR CLEVELAND.

Parepa Hail was crowded list night by a mass-meeting of workingmen, held under the auspices of the Young Men's Democratic Club of this city, for the purpose of endorsing the nomination of Cieveland and Hendricks. The hard-handed sons of toil formed a large majority of the audience, and were very quick to appreciate the peints made by the speakers.

The chair was taken by Park-Commissioner Crimmins, who, after the unanimous passage of a resolution endorsing the Democratic presidential candidates, introduced Mr. Algernon S. Sullivan to the audience.

Mr. Sullivan was received with great applause.

In the course of his speech Mr. Sullivan referred to the prevalence of cammercial distress, the suspension of work in factories, and the closing of mines and the shutting out therefrom of laborers. He said that the Republican party should be held responsible for this condition of things, for it had been in the control of the Government for over twenty years.

In alluding to the claim that Mr. Blaine was the friend of Irishmen he said he desired to say with as great an emphasis as

two other eases bets of \$1,000 even were made that Cleveland would be elected.

Mr. William R. Travers, for the first time in several years, appeared on the floor of the Stock Exchange yesterday. He was given a noisy and demonstrative welcome by several hundred of his colleagues. Mr. Travers asked for the roll of the Cleveland and Hendricks Club now being formed in the Stock Exchange. When he had signed his name as a member the Cleveland men on the floor gave him three rousing cheers.
